

# City of Dillon Council Policies

## Council Members' Authority

By resolution unanimously adopted on May 12, 1984, the City Council of the City of Dillon established that no one member of the Council has the authority to act on behalf of the City but rather the authority arises only when the Council acts collectively.

This same resolution provided that each and every individual Alderman would resolve to leave the city employees alone, and further, that the Council would work together as a group.

Passed by the Council May 1984
